Project Tasks

History

We will be continuing to learn about the Vikings during this half term. Visit

<https://www.fotevikensmuseum.se/d/en/vikingar/hur/mat/recept>

or

<https://www.ribevikingecenter.dk/en/learn-more/viking-slow-food/recipes.aspx> for a range of Viking recipes or see Seesaw for a recipe for Viking bread. Prepare and cook the food according to the recipe, take photographs of your endeavours and produce a poster detailing the recipe and you eating it like a Viking!

Science

During this half term, we will be studying electricity and electrical systems. Research the internal (within your home) and external dangers electricity may pose. Produce a leaflet either in paper form or electronically entitled: 'Electrical Safety' educating young children about the potential dangers of electricity. See Seesaw for supporting documents.

PSHE: COP26

Over the period November 1 – November 12, the COP26 Climate Summit is being held in Glasgow. Watch news reports across the two weeks; research the issues being debated and discover what the countries of the world are going to do to resolve the problem of climate change. Produce a newspaper report or poster presentation demonstrating the key findings of the summit. I will be uploading links and resources to Seesaw throughout the two-weeks that the COP26 Climate Summit is on.

All projects (blue boxes) must be back in school for a celebration lesson in class on **Wednesday 15th December 2021**

Remember the more home learning you do, the more Dojos you will achieve!
You could tweet us when you are working on your home learning @MasefieldCP
