

As part of Book Week here at Masfield and to celebrate World Book Day 2022, we have put together a series of books for each year group. These books are some of the best contemporary examples of children's fiction and non-fiction, encompassing a diversity of topics and sensational storytelling. There are books about the environment; books about our emotions and feelings; books that celebrate difference and books that take our imaginations on the most wonderful journeys. This is our selection for Year 5.
