Enrichment – Autumn 2

At Masefield Primary School, the Enrichment program for Key Stage 1 children has provided valuable opportunities to engage in activities that support both academic growth and personal development. This term, children participated in activities such as **Thrive with Mrs Willett** and **Maths with Mrs Greenhalgh**, which have been carefully designed to enhance their emotional wellbeing and foundational skills.

Thrive with Mrs Willett- Thrive sessions have offered children a safe and nurturing space to explore their feelings and emotions. Through interactive activities and thoughtful discussions, pupils learned about recognizing and understanding their emotions. They were introduced to strategies to support mental health and wellbeing, helping them to build resilience, self-awareness, and positive coping mechanisms. These sessions have been instrumental in fostering a sense of security and confidence, equipping children with tools to navigate their emotional world effectively.

Maths with Mrs Greenhalgh- Maths sessions focused on making basic number skills engaging and accessible for young learners. Through fun, hands-on learning activities, children explored concepts such as counting, addition, subtraction, and number recognition. Using practical tools and games, pupils developed their confidence in early mathematical skills while building a strong foundation for future learning. These interactive sessions encouraged a positive attitude toward maths and nurtured problem-solving abilities.

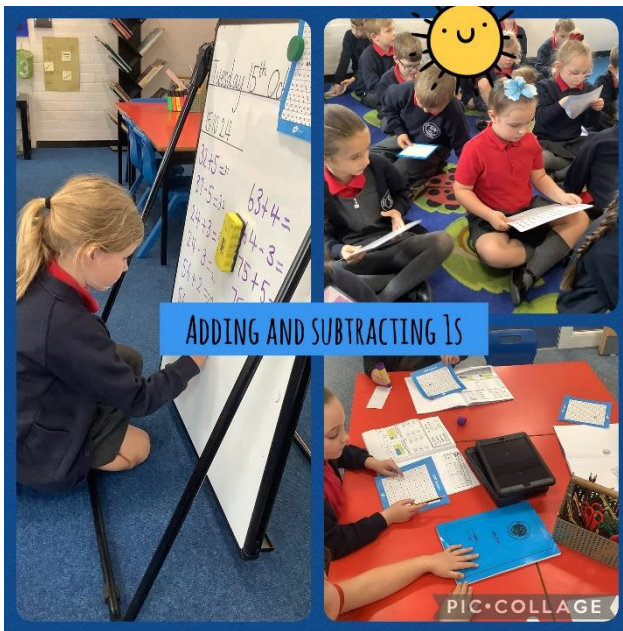

PE with Miss Jones and Mrs Cooper- In Enrichment, PE with Miss Jones and Mrs. Cooper is an exciting and dynamic experience that combines fun and fitness. Miss Jones brings energy and creativity to the sessions, introducing engaging activities that encourage teamwork and individual growth. Meanwhile, Mrs. Cooper's supportive approach ensures everyone feels included and confident to participate. Together, they create an inclusive environment where students can build physical skills, boost their wellbeing, and enjoy the thrill of staying active.

The Enrichment program for Key Stage 1 at Masefield Primary School has provided a well-rounded approach to both personal and academic development. Thrive sessions have supported children's emotional growth, while maths activities have laid the groundwork for lifelong learning. Together, these opportunities have ensured that pupils feel confident, capable, and equipped to thrive both in school and beyond.

Enrichment – Summer 2

Key Stage 1 Enrichment Evaluation – Masefield Primary School

At Masefield Primary School, the Key Stage 1 Enrichment programme has played a vital role in supporting our youngest learners' personal, emotional, and academic development. Carefully planned and delivered by our dedicated staff, this term's enrichment activities have provided meaningful experiences that extend beyond the traditional classroom and nurture the whole child.

This term, pupils took part in **Thrive with Mrs Willett**, **Maths with Mrs Greenhalgh**, and **PE with Miss Jones and Mrs Cooper**. Each activity was thoughtfully designed to promote confidence, resilience, and core skills in a fun and supportive environment.

- **Thrive with Mrs Willett** offered children a safe and nurturing space to explore their emotions and build emotional literacy. Through engaging activities and reflective discussions, pupils learned to recognise their feelings, understand emotional responses, and use practical strategies to support their wellbeing. These sessions have been crucial in helping children build resilience, self-awareness, and positive coping skills, laying the foundation for strong mental health and positive behaviour.
- **Maths with Mrs Greenhalgh** made early number skills enjoyable and accessible. Pupils engaged in a variety of hands-on activities to explore concepts such as counting, addition, subtraction, and number recognition. The use of practical tools and games helped children develop their mathematical understanding in a playful yet structured way, promoting a love of learning and a can-do attitude towards problem-solving.
- **PE with Miss Jones and Mrs Cooper** brought energy, teamwork, and inclusivity to the enrichment offer. Miss Jones introduced fun and creative physical challenges that encouraged pupils to be active and engaged, while Mrs Cooper ensured that every child felt supported and included. Together, they created an encouraging environment where children could improve their coordination, teamwork, and overall physical confidence.

Overall, the Key Stage 1 Enrichment programme this term has been a resounding success, offering pupils a rich blend of emotional support, academic growth, and physical development. The sessions have helped children feel secure, capable, and eager to learn, all while developing important life skills such as cooperation, resilience, and self-confidence.

Enrichment

Subject Leader Report 2024-2025

Next Steps for 2025:

1. **Expand Enrichment Variety** – Consider introducing additional sessions such as music, story-telling, creative arts, or nature-based learning to further spark curiosity and engage different learning styles.
2. **Pupil Voice** – Begin gathering informal feedback from pupils to understand which activities they enjoy most and where they feel most confident, helping shape future planning.
3. **Parental Engagement** – Share enrichment highlights with parents more regularly (e.g. newsletters, photo displays, or open afternoons) to strengthen home-school connections and celebrate pupil achievements.
4. **Social Skills Focus** – Explore enrichment activities specifically designed to support social development, such as turn-taking games, group projects, or buddy systems.
5. **Progress Monitoring** – Develop a simple way to track emotional, academic, and physical progress through enrichment sessions to ensure all pupils are benefiting and thriving.

The Enrichment programme at Masefield Primary School continues to play an essential role in supporting Key Stage 1 children's growth. By fostering a love of learning, emotional resilience, and physical confidence, we are equipping our youngest pupils with the skills they need to succeed both now and in the future.
